

♥ Car Seat Reminder Card ♥

It could be so easy to forget that a silent, sleeping baby is in the back seat of the car when you're distracted, sleep-deprived, or off of your usual routine. Hopefully this card will serve as a visual reminder that your little one is back there, to avoid the tragic harm or death of a child who is unintentionally left in a hot or cold vehicle.

DIRECTIONS:

1. Print card on card stock & cut it out.
2. Place card in empty car seat of young child.
3. Each time you strap child into car seat, transfer card to purse (or somewhere that you will be sure to see it when you get out of the car).
4. When you remove child from car seat, place card back in seat until the next time child rides in car.
